man. The officer arose and pulling out his own gun sent a bullet crashing through Johnson's body near the heart, when he toppled and fell out of the wagon into the roadside, dead. He was conveyed to an undertaker's establishment and was subsequently removed to his home. The constable surrendered and was released on his own recognizance.
Johnson was a well-to-do farmer and had a large family.

Blew Her Head Off.

Fayette, Mo., Jan. 16.—The little town of Burton, eight miles north of here, was the scene of a very tragic and deplorable death. Miss Lilla Tribble, the pretty 17-year-old daughter of William E. Tribble, the village blacksmith, committed suicide about 12:30 o'clock. For some weeks past the young lady had appeared despondent, and to day, while her mother was in Chillicothe, her father was in Moberly and her two little brothers were out hunting, she left the room, telling her married sister and her twin sister that she was going to kill herself.

Having threatened to take her life before, the sisters thought nothing of her remark. In a few minutes the report of a gun was heard and the twin sister running out to an old outhouse found the girl dead on the floor with a double-barreled shot gun lying on her breast. She had sat down on the floor, placed the butt end of the gun on the floor, and, while holding the muzzle with her left hand, placed it against her forehead and pulled the trigger with her right hand. A horrible looking hole was torn in her skull, and her brains ran out on the floor.

Deceased left a note stating that she was tired of all this world, and bid good-by to all the family. She told her twin sister to tell her sweet heart, who lived in Fort Scott, Kan., good-by. A love affair is supposed to have caused her to take her life. She will be buried to-morrow at Sharon church.

Shot Dead By An Officer.

Springfield, Mo., Jan. 15.—A hiterto respectable farmer residing with his family about ten miles east of the city, was shot and instantly killed last night by officers who were pursuing him. For some time past the proprietors of the Springfield factory have been missing small articles from the factory, which is not being used at present, and no watchman is employed. Yesterday a constable was detailed to watch the place, and about 3 o'clock in the afternoon Johnson drove up to the place, and, passing into the building, soon emerged with a large belt, which he dumped into his wagon and drove off. The officer went for assistance and with two others started in pursuit of the robber. He was overtaken about two miles east of the town and one of the constables ordered the man to stop and seized the horses by the bridle, whereupon Johnson whipped the horses, causing them to start suddenly, knocking the constable down. When the officer fell Johnson whipped out a revolver and fired two shots at the prostrate

A Fine Place For Carlisle.

Louisville, Ky., Jan. 13.—It is reported here on the best authority that Secretary of the Treasury Carlisle has been offered \$25,000 a year to become the president and general counsel for a chain of national loan associations to be established by a syndicate of Ohio millionaires. He will it is said be given a month to decide.

M. L. Walters, president of the Interstate Union of Mine Workers, has been kicked out of office. Walters is the man who, precipitated the late coal mine strike in this state and Kansas. He was a regular agitator, a man of small calibre, and has done the army of working men under his control untold injury. P. H. Penna, vice president of the national organization, said in his speech at Kansas City, that Walters had ambition to be elected to congress on the populist ticket.

Williams CASH GROCERY.

We have been so fairly treated by the citizens of Butler and Bates county during the last year in the way of extending us their trade, that we intend to reciprocate this year and make cheaper prices than was ever heard of in Bates county before. We had a large trade last year and while we sold goods cheap, we intend to reduce the prices this year by increasing our trade. The only way that good goods can be sold cheap is a large trade and for cash. We are large shippers of the farmers' products, chickens, geese, ducks, butter and eggs and will at all times give you every cent we possibly can for it.

You must always take into consideration the cheap price we are selling our goods at. Someone may at times offer you a cent or so more for your produce than we; if they do find out before you sell to them how they are going to sell you goods in return for it. Remember there are two ends to every string. Our basis of business this year will be to sell our goods for the very lowest price they can possibly be sold at and pay the highest price for produce that we can possibly pay and save ourselves; if you can make a better trade with your produce or make your cash go further at any other house than you can with us the man you trade with will starve to death.

There are several in our city who are trying to imitate our way of doing business but every person that has traded with us in the past knows that we do business on strictly business principles, warrant everything we sell to be as represented or money refunded without any parley. We keep only the best quality of goods, and when we advertise prices and say the best we mean it. We will give you

Cowardly Attack.

West Plains, Mo., Jan. 13.—Will White of Baxter county, Ark., was called to his door a few nights ago and shot, the bullets shattering his thigh. The leg will have to be amputated. Eight young men have been arrested for the crime, and one of them, Eugene Mooney, has confessed that he and the seven others did the shooting, but no cause is given. White returned the fire of his assailants, but did not accomplish anything.

Jealous of his Wife.

Shoals, Ind., Jan. 14.—Charlie Amos a prominent farmer residing south of this city, took his revolver from a bureau drawer this morning and remarked to his wife that he intended to end his earthly career. She grabbed hold of the revolver and endeavored to take it from him. He jerked it away from her and with a death grip and jumping out of the door, went down a path about thirty feet and placing the revolver back of his ear pulled the trigger and lodged a ball in his brain killing him instantly. He was jealous of his wife and they had separated, but had gone to living together again upon his promise to do better, but he became insane brooding over the matter until life became a burden.

Criminal Case Dismissed.

Harrisonville, Mo., Jan. 13.—The case of the State of Missouri vs. S. G. Barker and J. W. Robinson vs. S. G. Barker, charged with ruining Miss Gertie Robinson of Belton, were dismissed yesterday evening in the Circuit court by plaintiff. The trial resulted at the last term in a hung jury. Prof. Barker for six years was county commissioner and both parties stood high in social circles. A great deal of interest was taken on account of the prominence of the parties, and the dismissal is a victory for the defendant.

In speaking on the Wilson tariff in congress Tuesday Mr. Harter hit the nail square on the head when he made the following assertion: "Mr. Harter (Democrat) of Ohio, a large manufacturer of agricultural implements and the well-known free trade advocate, declared if by law the prices of goods were reduced for the benefit of the many it matter ed not how it injured the few, but when the law put up prices the wrong was manifest because it benefited the few at the expense of the many. The law should give the greatest good to the greatest number."

"Mr. Breckinridge (Democrat) of Kentucky took the floor. In the course of his speech Mr. Breckinridge likened the advocates of protection to sharks. Mr. Walker of Massachusetts insisted on knowing to whom he applied such an epithet. "I did not mean to hurt the gentleman's feelings," replied Mr. Breckinridge.

Mr. Walker, however, declared that was not a fair answer.

"Well then," responded Mr. Breckinridge, "I refer to those who, during the peril and distress of a great civil war, took advantage of labor in the name of patriotism, and later, in time of profound peace, increased those exactions until, in the Fifty-first Congress, they wrote a new law that enriched themselves. I refer to those who admitted new States to retain power, those who purchased ballot boxes and took the seat of William M. Morrison in this House by bribery." [Democratic applause.]

"Being an American manufacturer and one of those who helped to make those laws, do you refer to me?" inquired Mr. Walker.

"If the description fits you, then you have recognized your own picture." [Laughter and applause.]

The cause of our hard times can be summed up in the following sentence: The New York City banks now hold deposits of \$475,000,000—more than one third the money, gold, silver and paper in the United States. Broadly speaking this fact may also be said to be one of the effects of hard times. First, the money was hoarded up there and made hard times, and then after hard times came each of the owners is afraid to let lose his hold for fear of a general crash. If some one can originate a plan by which all of the depositors will be willing to turn their holdings once more into the channels of trade or commerce then we will have good times again.—Ex.

There is no nonsense about galling Tom Johnson, the Ohio Congressman. In an answer to a letter asking him to vote against the Wilson bill, he promptly replied: "I shall do nothing of the kind. My objection to the Wilson bill is not that its duties are too low, but that they are too high. I will do all I can to cut its duties down, but I will strenuously oppose putting them up. So long as I continue to represent you in Congress I shall act on the principle of equal rights to all and special privileges to none, and wherever I can abolish any of the taxes that are now levied on labor or the products of labor I will do it, and where I cannot abolish I will do my best to reduce. When you get tired of that you can elect some one in my place who suits you better."

DREADFUL PSORIASIS

Covering Entire Body with White Scales. Suffering Fearful. Cured by Cuticura.

My disease (psoriasis) first broke out on my left cheek, spreading across my nose, and almost covering my face. It ran into my eyes, and the physician was afraid I would lose my eyesight altogether. It spread all over my head, and my hair all fell out, until I was entirely bald-headed; it then broke out on my arms and shoulders, until my arms were just one sore. It covered my entire body, my face, head, and shoulders being the worst. The white scales fell constantly from my head, shoulders, and arms; the skin would thicken and be red and very itchy, and would crack and bleed if scratched. After spending many hundreds of dollars, I was pronounced incurable. I heard of the CUTICURA REMEDIES, and after using two bottles CUTICURA RESOLVENT, I could see a change; and after I had taken four bottles, I was almost cured; and when I had used six bottles of CUTICURA RESOLVENT, one box of CUTICURA, and one cake of CUTICURA SOAP, I was cured of the dreadful disease from which I had suffered for five years. I cannot express with a pen what I suffered before using the REMEDIES. They saved my life, and I feel it my duty to recommend them. My hair is restored as good as ever, and so is my eyesight.
Mrs. ROSA KELLY, Rockwell City, Iowa.
